

Data Sheet

Sharlu ATF VI

(FULL SYNTHETIC)

Product Description

Sharlu ATF VI is a high performance, premium quality synthetic that is recommended for most modern 6+ speed automatic transmissions. It has been designed for use in a wide range of vehicles manufactured by North American, European and Japanese automakers (refer to owner's manual).

Sharlu ATF VI has been formulated using the latest generation technology meeting with the stringent requirements required for automatic transmission and transaxles where an ATF-VI fluid is specified (Model Years 2006 and newer) and is backward compatible in transmissions calling for ATF-II or ATF-III fluids.

Main Benefits

Sharlu ATF VI Fluid provide the followings:

- ❖ Extended fluid life and improved oxidation and thermal stability
- ❖ Optimized frictional properties that provide smooth gear shifting during low temperature operation and help prevent transmission vibration
- ❖ Outstanding resistance against sludge and deposit formation
- ❖ Improved anti-wear protection which contributes to extended transmission life and Outstanding low temperature performance
- ❖ Excellent seal & materials compatibility
- ❖ Excellent fluid and clutch durability
- ❖ Improve torque transfer - Effectively resist aeration & foam formation

Physical Characteristics	Test Method	Typical Values
Specific Gravity @ 60/60 °F	ASTD D-4052	0.8620
Kinematic Viscosity	ASTD D-445	
@ 40 °C		27.12
@ 100 °C		6.20
Viscosity Index	ASTM D-2270	195
Flash Point, COC, °C	ASTM D-92	190
Pour Point, °C	ASTM D-97	-45
