

# HD BRAKE FLUID DOT 4

## Product Description:

HD Brake Fluid is an automotive brake fluid of FMVSS No. 116 DOT 4 quality. It meets and exceeds SAE J-1703 E. HD Brake Fluid has a high viscosity index to ensure reliable and sturdy braking over a wide range of operating temperatures. Its high boiling point minimizes vapour lock at high operating temperatures.

## Main Benefits:

- ❖ Excellent lubricating properties reduces wear
- ❖ Outstanding physical and chemical stability
- ❖ Superior compatibility with seal material giving long component life
- ❖ Excellent low temperature fluidity and high boiling point gives wide operating range

## Application:

HD Brake Fluid is recommended for automotive type hydraulic brake and clutch systems. HD Brake Fluid gives superior performance in disc brakes where fluid is subjected to higher operating temperatures.

Physical Characteristics	Test Method	Typical Values
Equilibrium Reflux B.P. oC		240
Wet Equilibrium B.P. oC		158
Kinematic Viscosity	ASTM D-445	
@ -40 °C, cSt		1200
@ 100 °C, cSt		2.1
PH		8.5
