

Rust Preventive Oil

Product Description:

A general purpose medium term protective suitable as light duty lubricating oil for testing components prior dispatch. It is formulated specially to protect steel parts from rusting when stored inside the warehouse. It is also used for rust protection of external surface of all types of equipment including engines, compressors and hydraulic systems.

Main Benefits:

- ❖ Keeps engines cleaner.
- ❖ Good protection against corrosion and wear.
- ❖ Good oxidation stability

Application:

It is used for protection of finely finished parts between machines operations. They are used to protect machine while in transit or in temporary storage inside warehouse

| Physical Characteristics | | Test Method | | Typical Values |
|----------------------------|--|-------------|--|----------------|
| SAE Grade | | | | 22 |
| Specific Gravity @ 60/60 F | | ASTM D-4052 | | 0.856 |
| Kinematic Viscosity | | ASTM D-445 | | |
| @ 40 °C, cSt | | | | 22.2 |
| Viscosity Index | | ASTM D-2270 | | 103 |
| Flash Point, COC, C | | ASTM D-92 | | 190 |
| Pour Point, C | | ASTM D-97 | | -27 |
| TBN mg KOH/g | | ASTM D-2896 | | -9 |
